Sousse, Tunisia

SKILLS

Web & Mobile: Flutter, React, Node.js, Angular, Spring Boot, .NET
Programming Languages: Python, Java, JavaScript, Dart, Kotlin, PHP
Databases: MongoDB, MySQL, PostgreSQL, Firebase
AI & Data: ML, Power BI, TensorFlow, OpenCV
Cloud & Tools: AWS, Azure, Git, SCRUM

LANGUAGES

Arabic — Native
French — B2 (DELF)
English — B2 (TOEIC)
German — Basic

CERTIFICATIONS

CCNA 1 / CCNA 2
Microsoft Azure (AZ-900)
AWS Cloud Practitioner

INES CHAREF
SOFTWARE ENGINEER

FullStack engineering graduate passionate about building innovative web and mobile applications. Strong experience in Flutter, React, Node.js and AI integration. Skilled at designing robust architectures and delivering high-value products.

PROFESSIONAL EXPERIENCE

Gold Crest — E-commerce Website 2026

Freelance — Web Developer
End-to-end design and development of a custom e-commerce website for a store specializing in backpacks, bicycles, and accessories.

- Product catalog (color selection, quantity management, cart) and a checkout flow with cascading delivery-zone selection (region → district) covering all 24 governorates of Tunisia.
- Secure admin back-office: authentication, product management (add/edit/delete, image upload), order tracking and status updates.
- Database-free architecture (JSON storage) for simplified deployment on shared hosting, reducing costs and technical complexity.
- Custom responsive design and full deployment ownership (hosting, domain configuration, production release).

PHP, HTML5, CSS3, JavaScript, JSON, shared hosting (cPanel/hPanel)

Engineering Intern – Final Year Project Feb – Jun 2026

SPACE HR · Tunisia
Flutter · FastAPI · Firebase · Gemini 2.0 Flash Vision API · MobileNetV2 · ONNX

- Built Smart Clothing Advisor: a complete mobile app (Flutter, FastAPI, Firebase) for AI-powered outfit recommendations via computer vision, with suggestions personalized by weather and marketplace catalog.
- Designed and iterated a 3-generation image classification pipeline: a CNN trained on Fashion-MNIST, then MobileNetV2 (92.6% accuracy), culminating in the integration of the Google Gemini 2.0 Flash Vision API as the primary classifier, with the local model as an offline fallback.
- Owned the project end to end (specifications, architecture, development, testing) and defended it with Highest Honors.

Data Analyst & BI Intern Feb 2026

SOSEPA (Groupe SOPROVAM) · Moknine, Tunisia
Python · Machine Learning · Power BI · ETL

- Built an ETL pipeline over 1 million e-commerce records (extraction, cleaning, normalization).
- ML models: Random Forest (product quality) and K-Means (popularity segmentation); decision-support Power BI dashboards.

Data Analyst & BI Intern Aug 2025

Arvion Canada · Remote
Web FullStack · Power BI · Machine Learning

- Cosmetics supply-chain web platform: decision-support dashboards and a predictive ML model for sales/production.

ACADEMIC PROJECTS

Library Management System
SPRING BOOT · MICROSERVICES

Spring Boot application built with a microservices architecture: books, members, and loans each managed by a dedicated microservice, synchronous inter-service communication, DTO pattern between Presentation and Business layers, JWT-based security.
Spring Boot, Java, JWT, REST API

Real Estate App
MOBILE · CROSS-PLATFORM

Cross-platform Flutter app for property rental/sale, advanced search, and listings.
Flutter, Dart, Firebase Storage, Provider

SugarHero
FULLSTACK · MEDICAL

Educational blood-glucose tracking platform for diabetic children: educational quizzes, real-time glucose tracking with medication reminders, diet and activity advice based on glucose levels, admin dashboard.
React.js, Node.js, MongoDB, Socket.IO, JWT

Android ToDo List
MOBILE · ANDROID

Android task management app with Firebase Auth, categories, priorities, and due dates.
Java, Android Studio, Firebase Auth

EDUCATION

National Engineering Degree – Software Engineering 2026

EPI Digital School · Sousse — Highest Honors

Integrated Preparatory Cycle in Computer Science 2021 – 2023

EPI Digital School · Sousse

Technical Baccalaureate 2021
